
OXFORD AREA MENTAL HEALTH **NEEDS ASSESSMENT SURVEY**

RESULTS REPORT
MAY 2022

Background & Methodology

Oxford Area Mental Health Needs Survey was developed and conducted by North Oakland Community Coalition (NOCC) to help gather information about the mental health needs in Oxford and surrounding areas since the tragedy on November 30th, 2021. The goal of the survey was to support in the understanding of what community services have been and will be most helpful. This report was developed to share the data gathered with the community, area organizations and agencies, and other key stakeholders with the hopes it can be used as a tool to build a compassionate, collaborative, and sustainable plan for community healing.

This was an anonymous online survey distributed to the public for those 18 years of age or older and ran from March 7, 2022, through March 31, 2022. The survey was released and promoted via social media, NOCC newsletter, and through community partner organizations such as local governments and school districts.

There were 1,333 individuals who started the survey. Of those that started the survey, there were 1,058 who were over 18 years old and answered beyond the demographic (Q5) questions. Those 1,058 are the ones used in this data report. Respondents did not have to answer every question; however, all respondents' answers were included in this report. Where there are percentages, they are calculated from the number who answered the question. For this survey, the other response option did not allow for individuals to write in responses.

There are two sections in the report. The first looks at the responses from those that noted they were a parent of a child who was enrolled (present or not) at Oxford HS on 11/30/2021. The decision to include the results of this subset of the respondents was due to the importance of identifying the specific needs of the parents of children enrolled at Oxford HS on 11/30/2021. The second section looks at the results from everyone who participated in the survey.

It is understood that the survey respondents only represent a small percentage of those impacted by the tragedy on November 30, 2021. It is important groups continue to seek input from the community in other ways.

Parents of a child enrolled at Oxford HS on 11/30/2021

There were 384 survey respondents who described themselves as a parent of a child who was enrolled (present or not) at Oxford HS on 11/30/2021. The following pages look at their survey responses. The decision to include the results of this subset of the respondents was due to the importance of identifying the specific needs of the parents of children enrolled at Oxford HS on 11/30/2021.

Demographics

The table below shows the communities of the parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the *Oxford Area Mental Health Needs Survey*.

Where do you live? (Select only one)

Community	Percentage & Count
Oxford	79.4% (n = 301)
Lake Orion	1.3% (n = 5)
Brandon	2.6% (n = 10)
Addison	3.4% (n = 13)
Oakland	1.3% (n = 5)
Independence	0.0% (n = 0)
Metamora	5.5% (n = 21)
Dryden	2.6% (n = 10)
Oakland County, but not a community listed above	2.9% (n = 11)
A community not listed above – Outside Oakland County	0.8% (n = 3)

The table below shows the age groups of the parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the survey. Only those 18 years of age and older could participate.

How old are you?

Age Group	Percentage & Count
Under 18	0.0% (n = 0)
18 - 25	0.8% (n = 3)
26 - 41	16.7% (n = 64)
42 - 64	82.0% (n = 315)
65 or older	0.5% (n = 2)

The table below depicts the percentage and count of the gender of the survey respondents who identified themselves as parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021.

What best describes your current gender?

Gender	Percentage & Count
Female	90.3% (n = 346)
Male	9.7% (n = 37)
Non-binary	0.0% (n = 0)
A gender not listed here	0.0% (n = 0)
Prefer not to answer	0.0% (n = 0)

The table below shows the percentage and count of the race/ethnicity of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the survey.

Which race/ethnicity best describes you? (Select all that apply)

Race Ethnicity	Overall
White or European American	97.1% (n = 370)
Asian	1.6% (n = 6)
Hispanic/Latino	1.6% (n = 6)
American Indian/Alaskan	1.0% (n = 4)
African American	0.5% (n = 2)
Arab-American/Chaldean	0.3% (n = 1)

The table below shows the percentage and count of the parental or professional categorical description of the parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the survey. Respondents were allowed to select up to three response options on how they best describe themselves. For example, they could be a parent, as well as a teacher, as well as a healthcare provider, etc.

Please select which of the following best describe you?

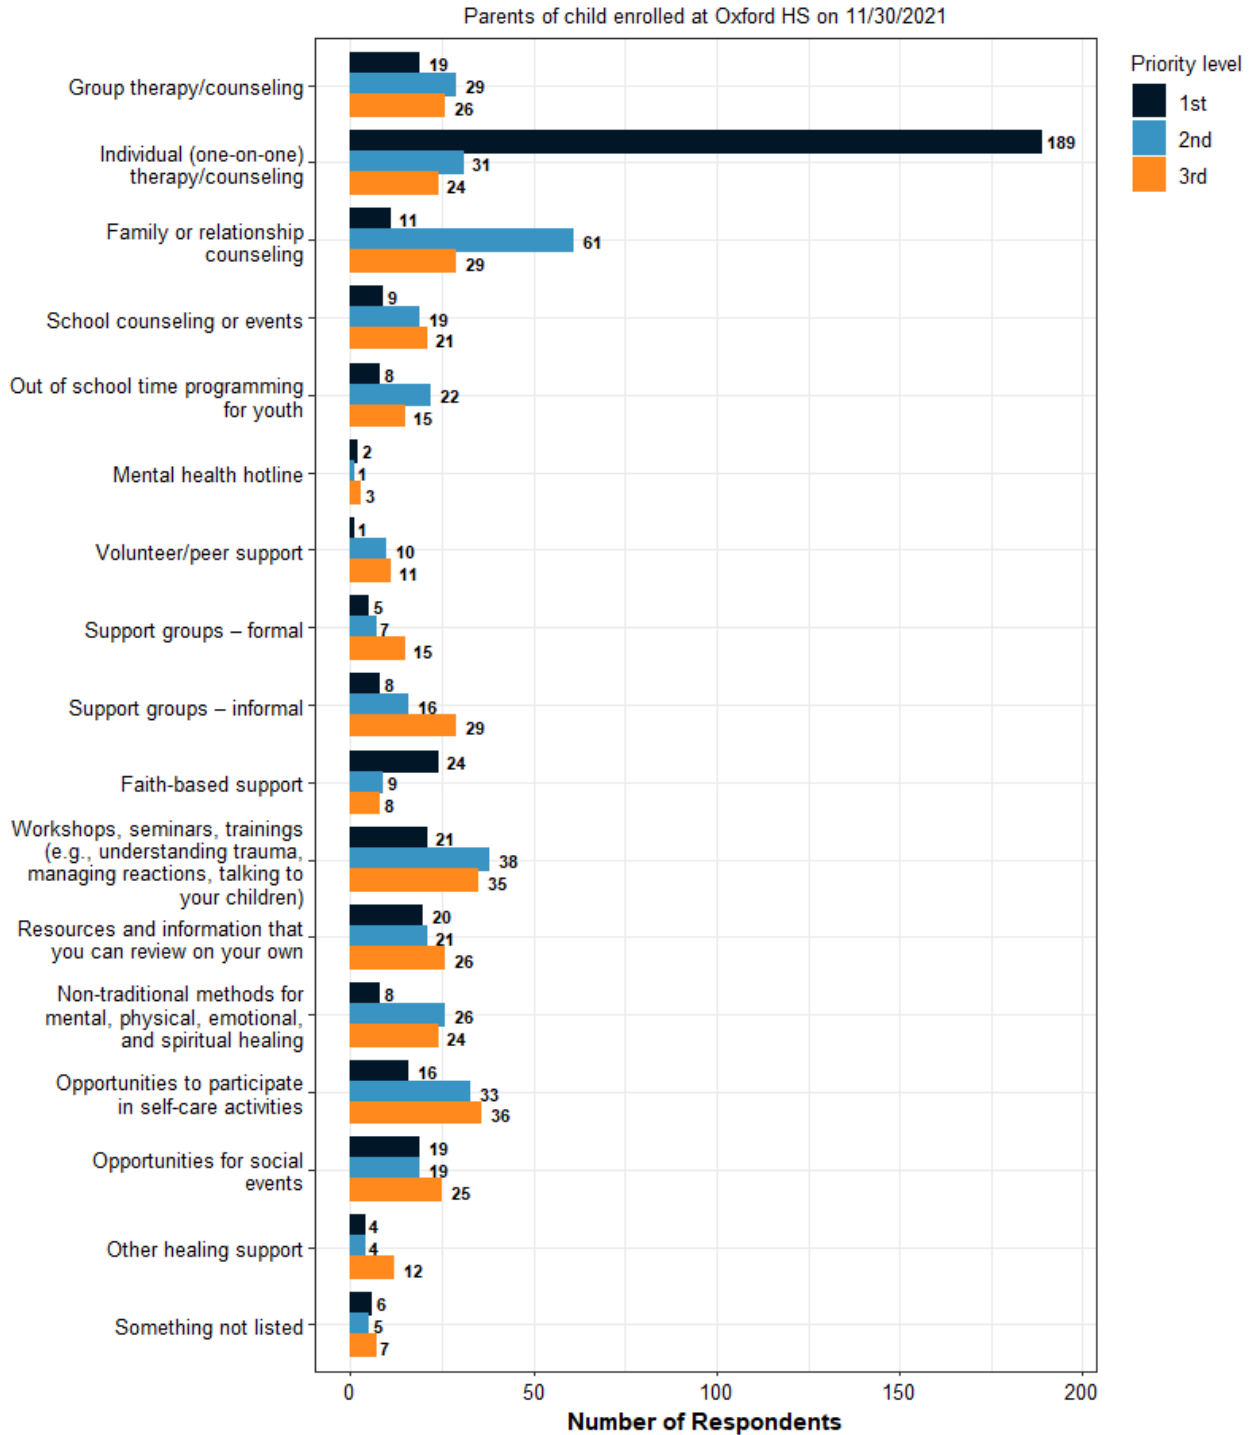

Response	Percentage & Count
Parent of a child enrolled (present or not) at Oxford HS on 11/30/2021	100.0% (n = 384)
Parent of a child enrolled at another Oxford Public School on 11/30/2021	22.9% (n = 88)
Community member	13.5% (n = 52)
Family member or close friend of someone who was lost or injured on 11/30/2021	9.1% (n = 35)
Teacher or staff member employed at another Oxford Public School on 11/30/2021	8.1% (n = 31)
Parent of a child not enrolled in Oxford Public Schools on 11/30/2021	5.7% (n = 22)
Teacher or staff member employed at another school on 11/30/2021	3.6% (n = 14)
Teacher or staff member employed at Oxford HS on 11/30/2021	2.6% (n = 10)
Faith community member	2.3% (n = 9)
Healthcare provider	2.1% (n = 8)
Mental health or community service provider	1.6% (n = 6)
Spouse, parent, or child of an adult witness (e.g., teacher, emergency responder)	1.3% (n = 5)
Member of the Oxford business community (employee, employer)	1.3% (n = 5)
Administrator or Public Official	1.0% (n = 4)
Other	0.8% (n = 3)
First responder (Police, Fire, Ambulance)	0.5% (n = 2)

Services & Support

Services and support type

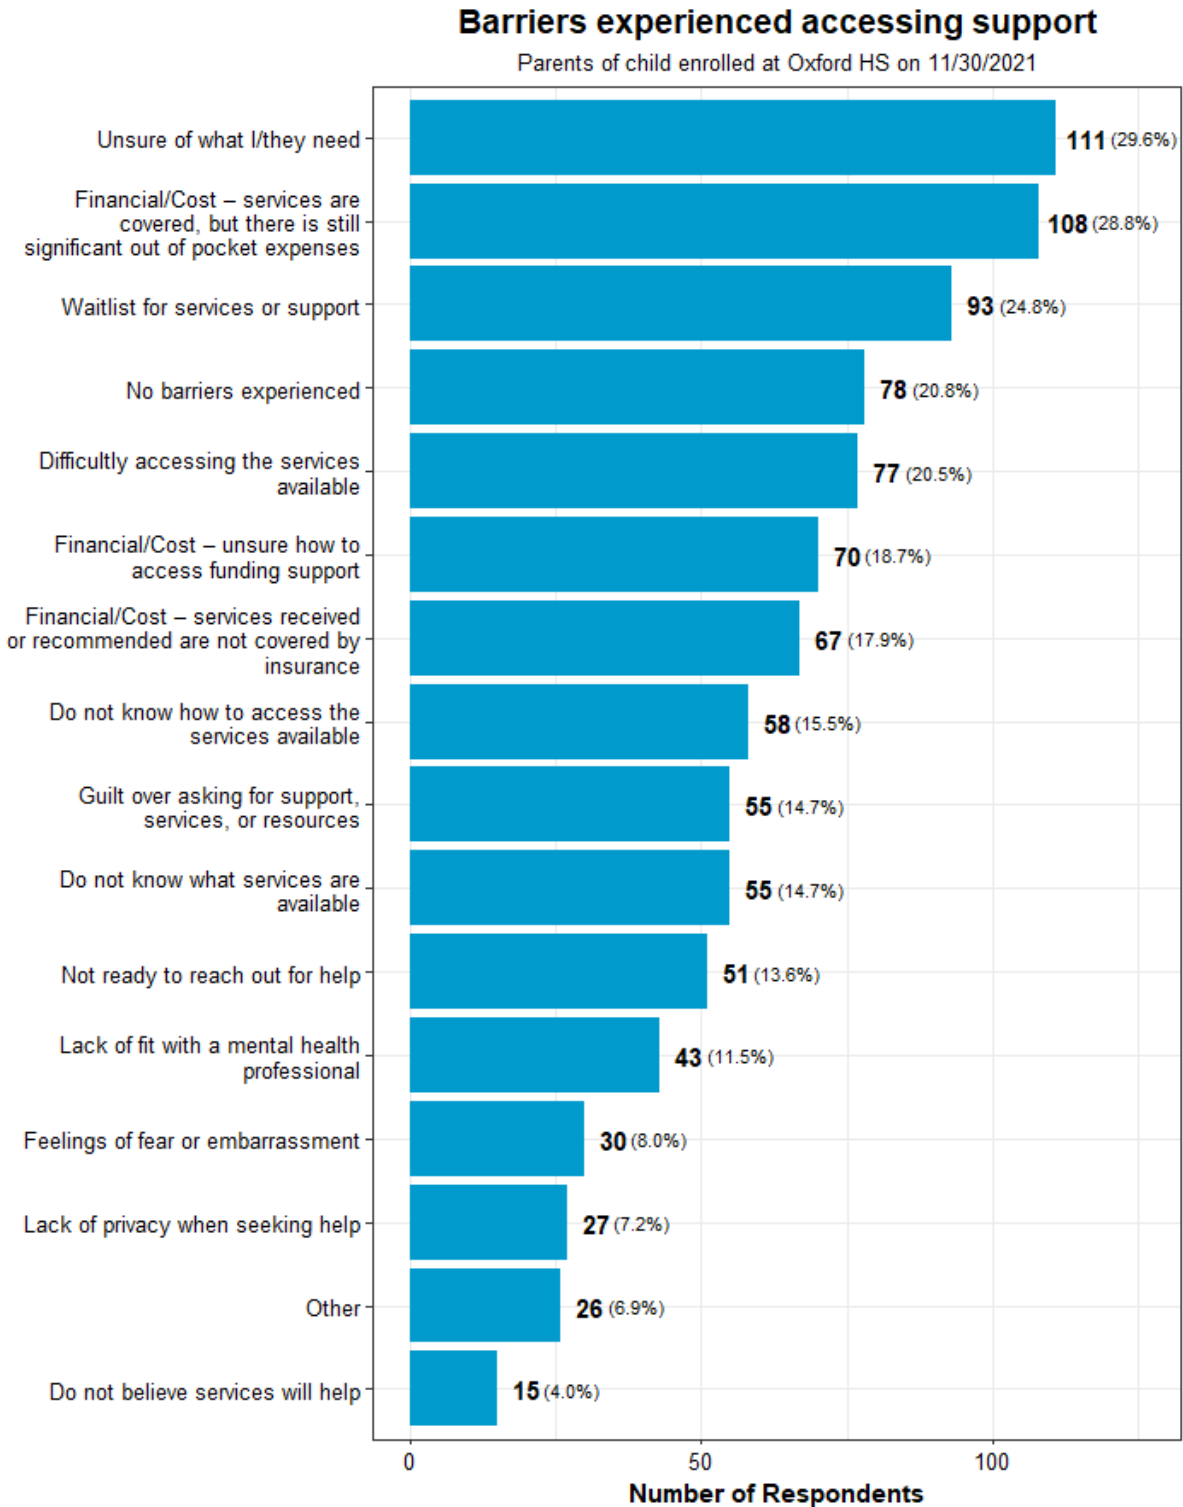

Individuals were asked to rank the top 3 services/supports they believed they or their family would most benefit from. The graph below shows the number of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the survey and their priority selection of the types of services and supports they believe will be the most beneficial.

Number of respondents who selected the support type by priority level

Barriers

Survey respondents were asked if they, a family member, or loved one had experienced any barriers to accessing the help or support they needed since the tragedy at Oxford High School. Respondents were instructed to select all that apply. The graph below shows the count and percentage in rank order of the barriers parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the survey selected they, a family member, or loved one has experienced when accessing help or support. The survey participants were also able to select “no barriers experienced” as a response option and this selection ranked # 4 in the overall rankings.

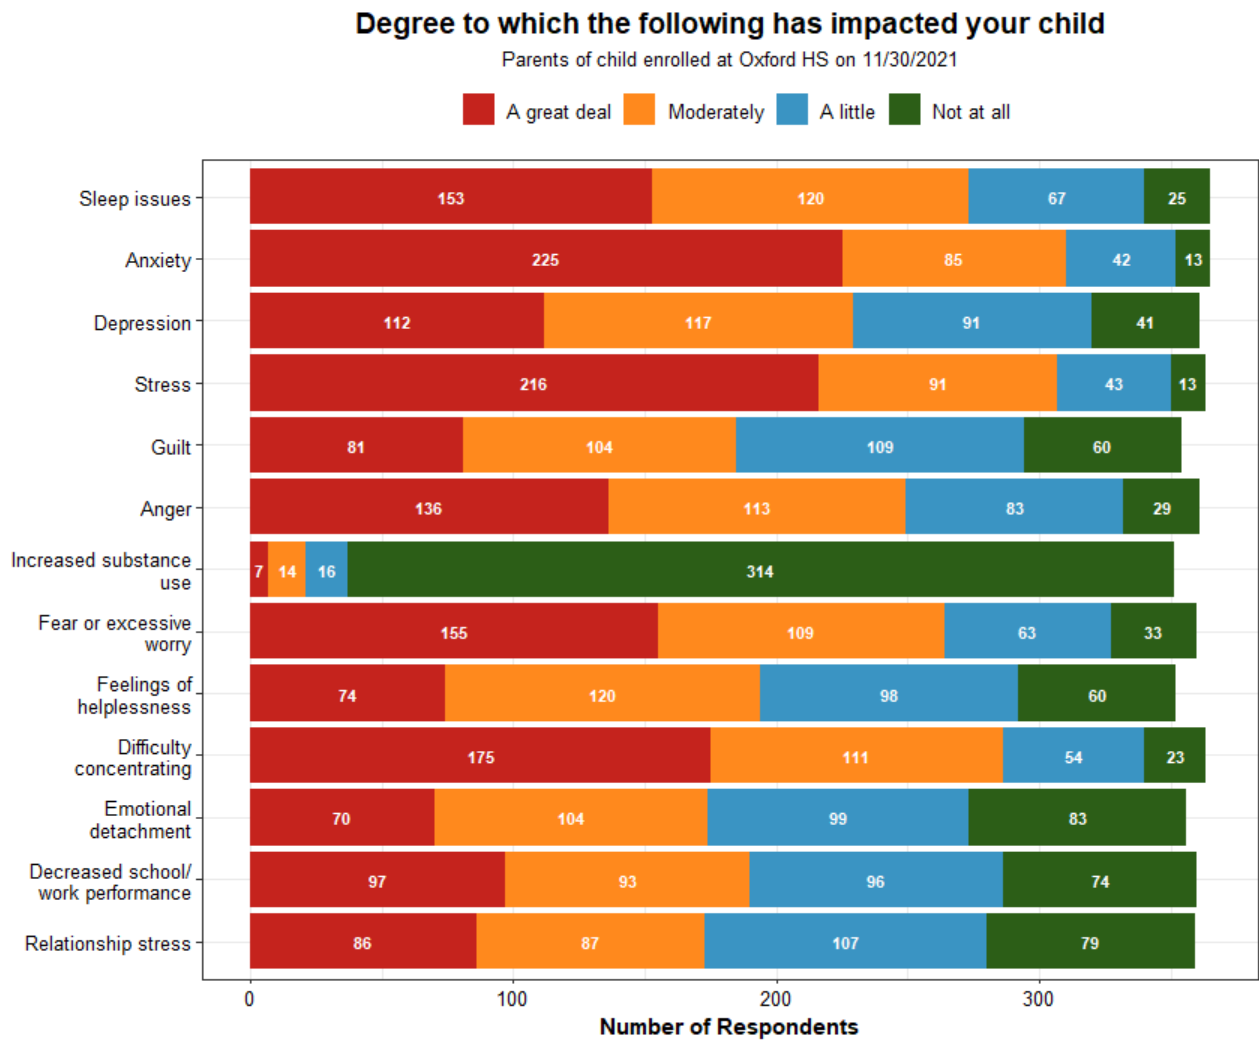

Source: Oxford Needs Assessment Survey 2022

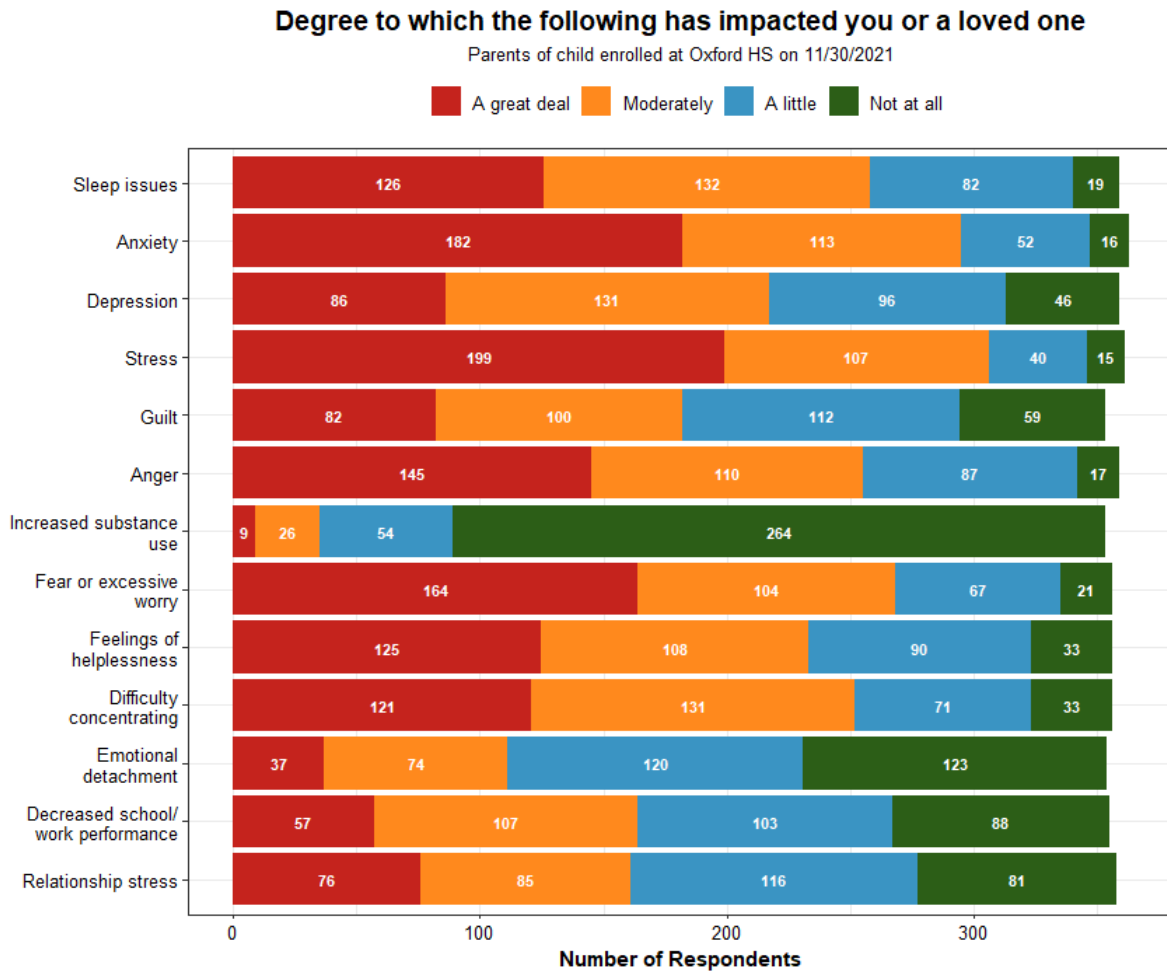

Impact

Only those that responded they were a parent of a child in kindergarten through 12th grade were given the opportunity to respond to the following question. There were 368 individuals who answered at least part of the next question.

Those that said they were a parent of a child in kindergarten through 12th grade were asked ‘The events of 11/30/2021 have impacted people in many ways. Please rate the degree to which the following has impacted your child.’ The graph below represents the count of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 that participated in the survey and their ratings of the degree or impact of various issues and problems their children are experiencing due to the events of 11/30/2021.

Everyone participating in the survey had the chance to answer this question. ‘The events of 11/30/2021 have impacted people in many ways. Please rate the degree to which the following has impacted you or a loved one.’ The graph below shows the count of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 and their ratings of the degree or impact of various issues and problems they or a loved one are experiencing due to the events of 11/30/2021.

Source: Oxford Needs Assessment Survey 2022

Experience seeking support

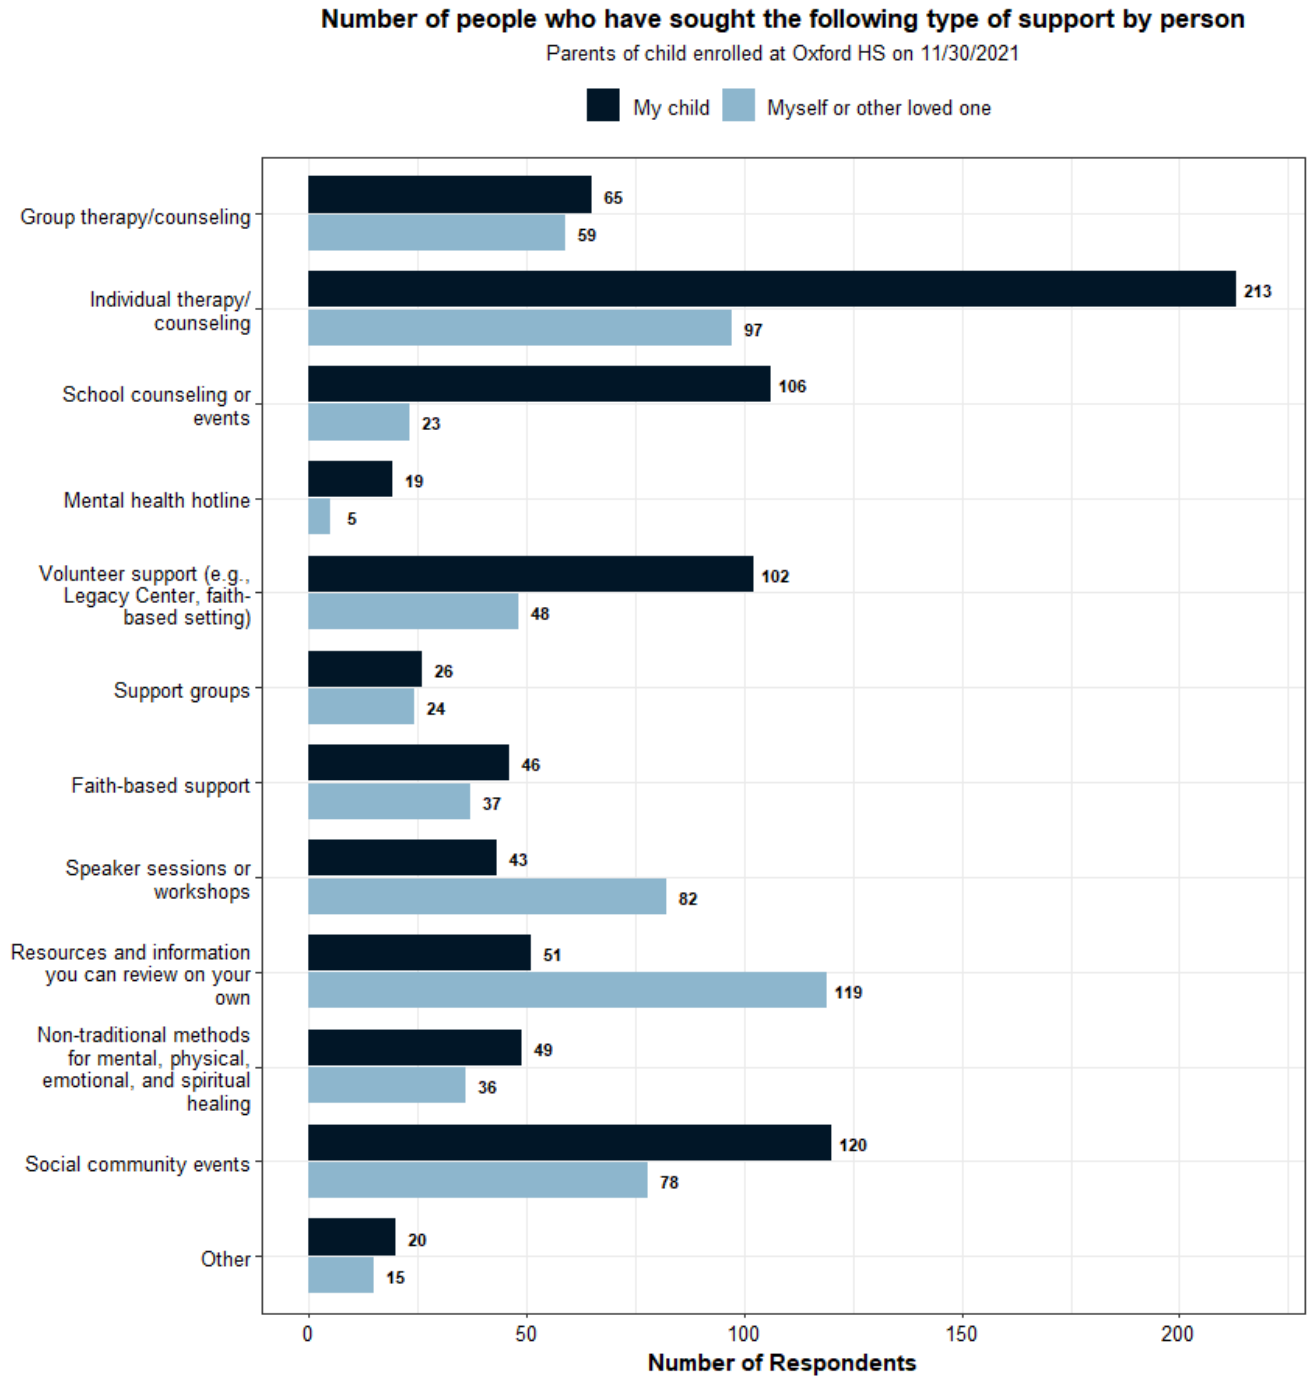

Individuals were given a prompt to let them know the next set of questions would ask about whether they or a loved one had sought mental health or wellness support since the tragedy on 11/30/2021. They were told the questions would ask what their experience was like accessing the support and the effectiveness. If the respondent had sought support but did not want to answer the questions, they were asked to select ‘Yes but wish to skip these questions’. The table below shows the percentage and count of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 who participated in the survey who had sought support for themselves or loved one at the time of the survey

Sought Support	Percentage & Count
Yes	69.0% (n = 252)
Yes, but wish to skip these questions	10.1% (n = 37)
No	20.8% (n = 76)

Only those who said yes answered the questions on the following pages.

What type of support have you sought and for who? (Select all that apply)

Of those who selected yes and participated in the next set of questions, 240 sought supports for their child and 196 for themselves or other loved one. Individuals could answer for both 'my child' and 'myself/other loved one'. The graph below depicts the number of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 who participated in the survey that sought distinct types of support for their child and for themselves or other loved ones.

Experience related to your child

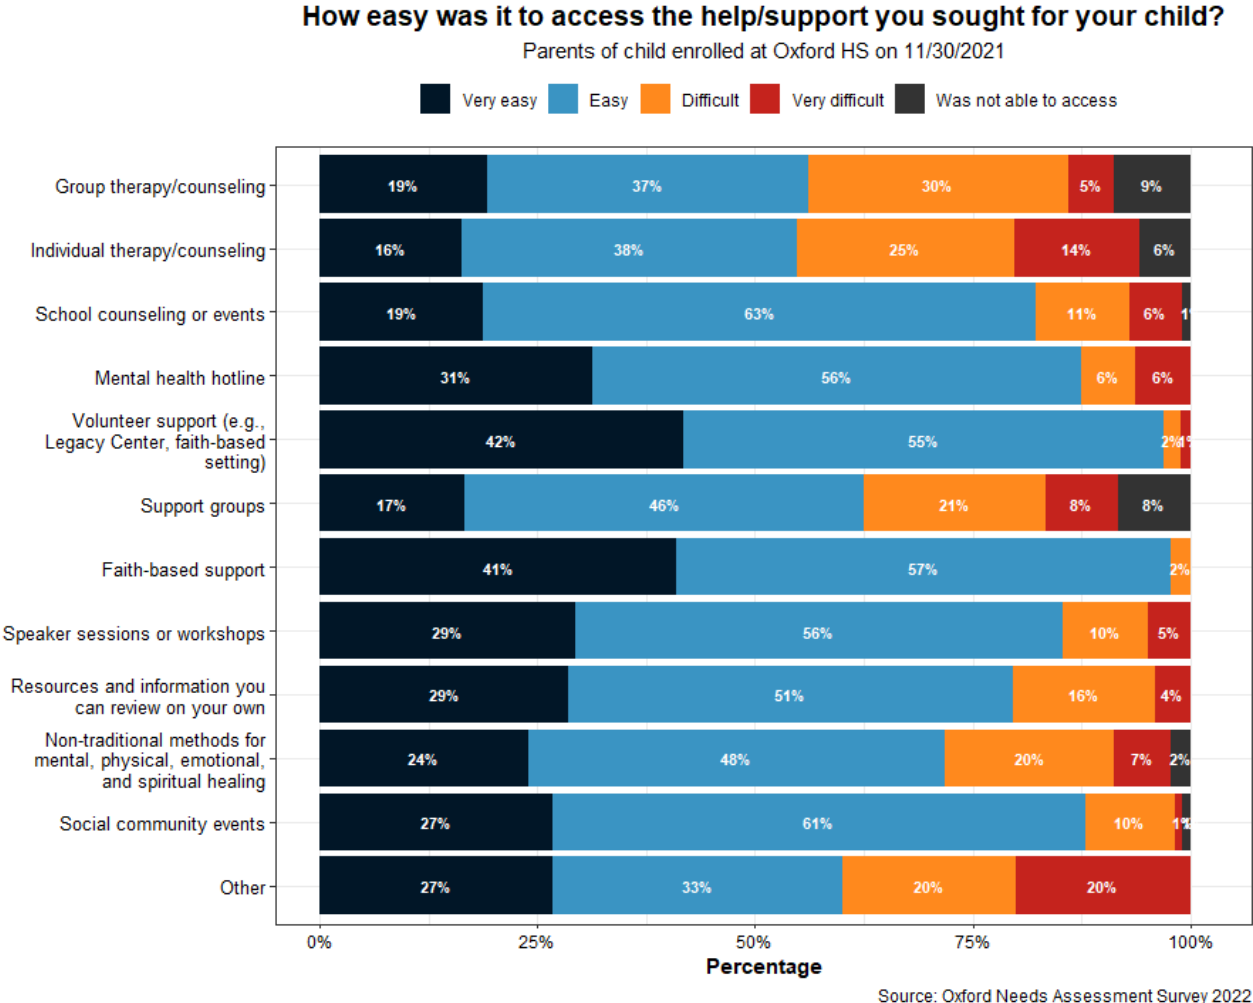

The table below shows the percentage and count of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 who participated in the survey and their ratings of access to help and support they sought out for their children. Only the support types they selected they sought for their child appeared to the respondent.

How easy was it to access the help/support you sought for your child?

Service/Support Type	Very easy	Easy	Difficult	Very difficult	Was not able to access	n
Group therapy/counseling	19.3% (n = 11)	36.8% (n = 21)	29.8% (n = 17)	5.3% (n = 3)	8.8% (n = 5)	57
Individual therapy/counseling	16.3% (n = 34)	38.5% (n = 80)	25.0% (n = 52)	14.4% (n = 30)	5.8% (n = 12)	208
School counseling or events	18.8% (n = 19)	63.4% (n = 64)	10.9% (n = 11)	5.9% (n = 6)	1.0% (n = 1)	101
Mental health hotline	31.2% (n = 5)	56.2% (n = 9)	6.2% (n = 1)	6.2% (n = 1)	0.0% (n = 0)	16
Volunteer support (e.g., Legacy Center, faith-based setting)	41.8% (n = 41)	55.1% (n = 54)	2.0% (n = 2)	1.0% (n = 1)	0.0% (n = 0)	98
Support groups	16.7% (n = 4)	45.8% (n = 11)	20.8% (n = 5)	8.3% (n = 2)	8.3% (n = 2)	24
Faith-based support	40.9% (n = 18)	56.8% (n = 25)	2.3% (n = 1)	0.0% (n = 0)	0.0% (n = 0)	44
Speaker sessions or workshops	29.3% (n = 12)	56.1% (n = 23)	9.8% (n = 4)	4.9% (n = 2)	0.0% (n = 0)	41
Resources and information you can review on your own	28.6% (n = 14)	51.0% (n = 25)	16.3% (n = 8)	4.1% (n = 2)	0.0% (n = 0)	49
Non-traditional methods for mental, physical, emotional, and spiritual healing	23.9% (n = 11)	47.8% (n = 22)	19.6% (n = 9)	6.5% (n = 3)	2.2% (n = 1)	46
Social community events	26.7% (n = 31)	61.2% (n = 71)	10.3% (n = 12)	0.9% (n = 1)	0.9% (n = 1)	116
Other	26.7% (n = 4)	33.3% (n = 5)	20.0% (n = 3)	20.0% (n = 3)	0.0% (n = 0)	15

Graph on the following page.

The graph below shows the same information as the table above. The only difference is it graphically depicts the percentage of survey respondents' ratings of access to help and support they sought out for their children and does not depict the counts.

Intentionally left blank.

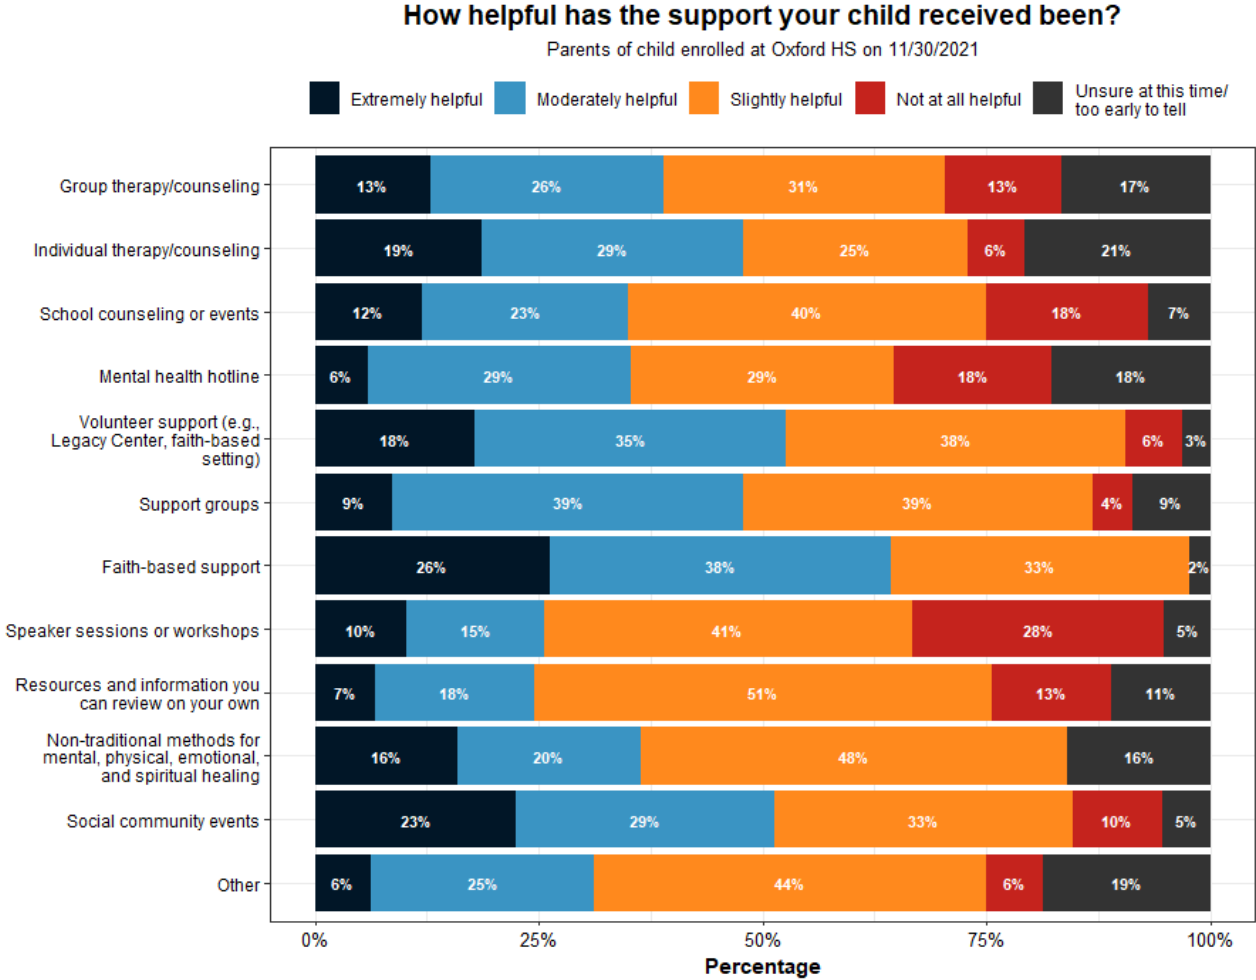

The table below shows the percentage and count of parents of children who were enrolled (present or not) at Oxford HS on 11/30/2021 who participated in the survey ratings of how helpful various service and support types have been for their children. Only the support types they selected they sought for their child appeared to the respondent.

How helpful has the support your child received been?

Service/Support Type	Extremely helpful	Moderately helpful	Slightly helpful	Not at all helpful	Unsure at this time/too early to tell	n
Group therapy/counseling	13.0% (n = 7)	25.9% (n = 14)	31.5% (n = 17)	13.0% (n = 7)	16.7% (n = 9)	54
Individual therapy/counseling	18.7% (n = 38)	29.1% (n = 59)	25.1% (n = 51)	6.4% (n = 13)	20.7% (n = 42)	203
School counseling or events	12.0% (n = 12)	23.0% (n = 23)	40.0% (n = 40)	18.0% (n = 18)	7.0% (n = 7)	100
Mental health hotline	5.9% (n = 1)	29.4% (n = 5)	29.4% (n = 5)	17.6% (n = 3)	17.6% (n = 3)	17
Volunteer support (e.g., Legacy Center, faith-based setting)	17.9% (n = 17)	34.7% (n = 33)	37.9% (n = 36)	6.3% (n = 6)	3.2% (n = 3)	95
Support groups	8.7% (n = 2)	39.1% (n = 9)	39.1% (n = 9)	4.3% (n = 1)	8.7% (n = 2)	23
Faith-based support	26.2% (n = 11)	38.1% (n = 16)	33.3% (n = 14)	0.0% (n = 0)	2.4% (n = 1)	42
Speaker sessions or workshops	10.3% (n = 4)	15.4% (n = 6)	41.0% (n = 16)	28.2% (n = 11)	5.1% (n = 2)	39
Resources and information you can review on your own	6.7% (n = 3)	17.8% (n = 8)	51.1% (n = 23)	13.3% (n = 6)	11.1% (n = 5)	45
Non-traditional methods for mental, physical, emotional, and spiritual healing	15.9% (n = 7)	20.5% (n = 9)	47.7% (n = 21)	0.0% (n = 0)	15.9% (n = 7)	44
Social community events	22.5% (n = 25)	28.8% (n = 32)	33.3% (n = 37)	9.9% (n = 11)	5.4% (n = 6)	111
Other	6.2% (n = 1)	25.0% (n = 4)	43.8% (n = 7)	6.2% (n = 1)	18.8% (n = 3)	16

Graph on the following page.

The graph below shows the same information as the table above with the difference that it depicts the percentage of survey respondents' ratings of how helpful various service and support types have been for their children and does not display the counts.

Intentionally left blank.

Other

All survey respondents were given the opportunity to answer the rest of the questions.

Survey respondents were asked if they were learning about different ways of healing and dealing with stress. The graph below shows the percentage and count of parents of children enrolled at Oxford High School on 11/30/2021 who participated in the survey and the healing and support types they were interested in learning about. Respondents were able to check all that apply.

Overall Results

This section of the report includes the tables graphs that examine the results of everyone who participated in the survey.

Demographics

The table below shows the percentage and count of the communities those who participated in the *Oxford Area Mental Health Needs Survey* live in.

Where do you live? (Select only one)

Community	Percentage & Count
Oxford	55.5% (n = 578)
Lake Orion	13.0% (n = 135)
Brandon	10.4% (n = 108)
Addison	2.8% (n = 29)
Oakland	2.5% (n = 26)
Independence	1.7% (n = 18)
Metamora	3.3% (n = 34)
Dryden	1.5% (n = 16)
Oakland County, but not a community listed above	6.2% (n = 65)
A community not listed above – Outside Oakland County	3.2% (n = 33)

The table below shows the age groups of those that participated in the survey. Only those 18 years of age and older could participate.

How old are you?

Age Group	Percentage & Count
Under 18	0.0% (n = 0)
18 - 25	3.7% (n = 39)
26 - 41	30.9% (n = 327)
42 - 64	62.2% (n = 658)
65 or older	3.2% (n = 34)

The table below depicts the percentage and count of the gender of those that participated in the survey.

What best describes your current gender?

Gender	Percentage & Count
Female	89.9% (n = 946)
Male	9.7% (n = 102)
Non-binary	0.1% (n = 1)
A gender not listed here	0.0% (n = 0)
Prefer not to answer	0.3% (n = 3)

The table below shows the percentage and count of the race/ethnicity of the survey participants.

Which race/ethnicity best describes you? (Select all that apply)

Race/Ethnicity	Percentage & Count
White or European American	96.2% (n = 1009)
Hispanic/Latino	2.3% (n = 24)
African American	1.0% (n = 10)
Asian	1.0% (n = 10)
American Indian/Alaskan	0.9% (n = 9)
A race/ethnicity not listed here	0.5% (n = 5)
Arab-American/Chaldean	0.2% (n = 2)
Native Hawaiian/Pacific Islander	0.1% (n = 1)

The table below shows the percentage and count of the parental or professional categorical description of the survey participants. Respondents were allowed to select up to three response options on how they best describe themselves. For example, they could be a parent, as well as a teacher, as well as a healthcare provider, etc.

Please select which of the following best describe you?

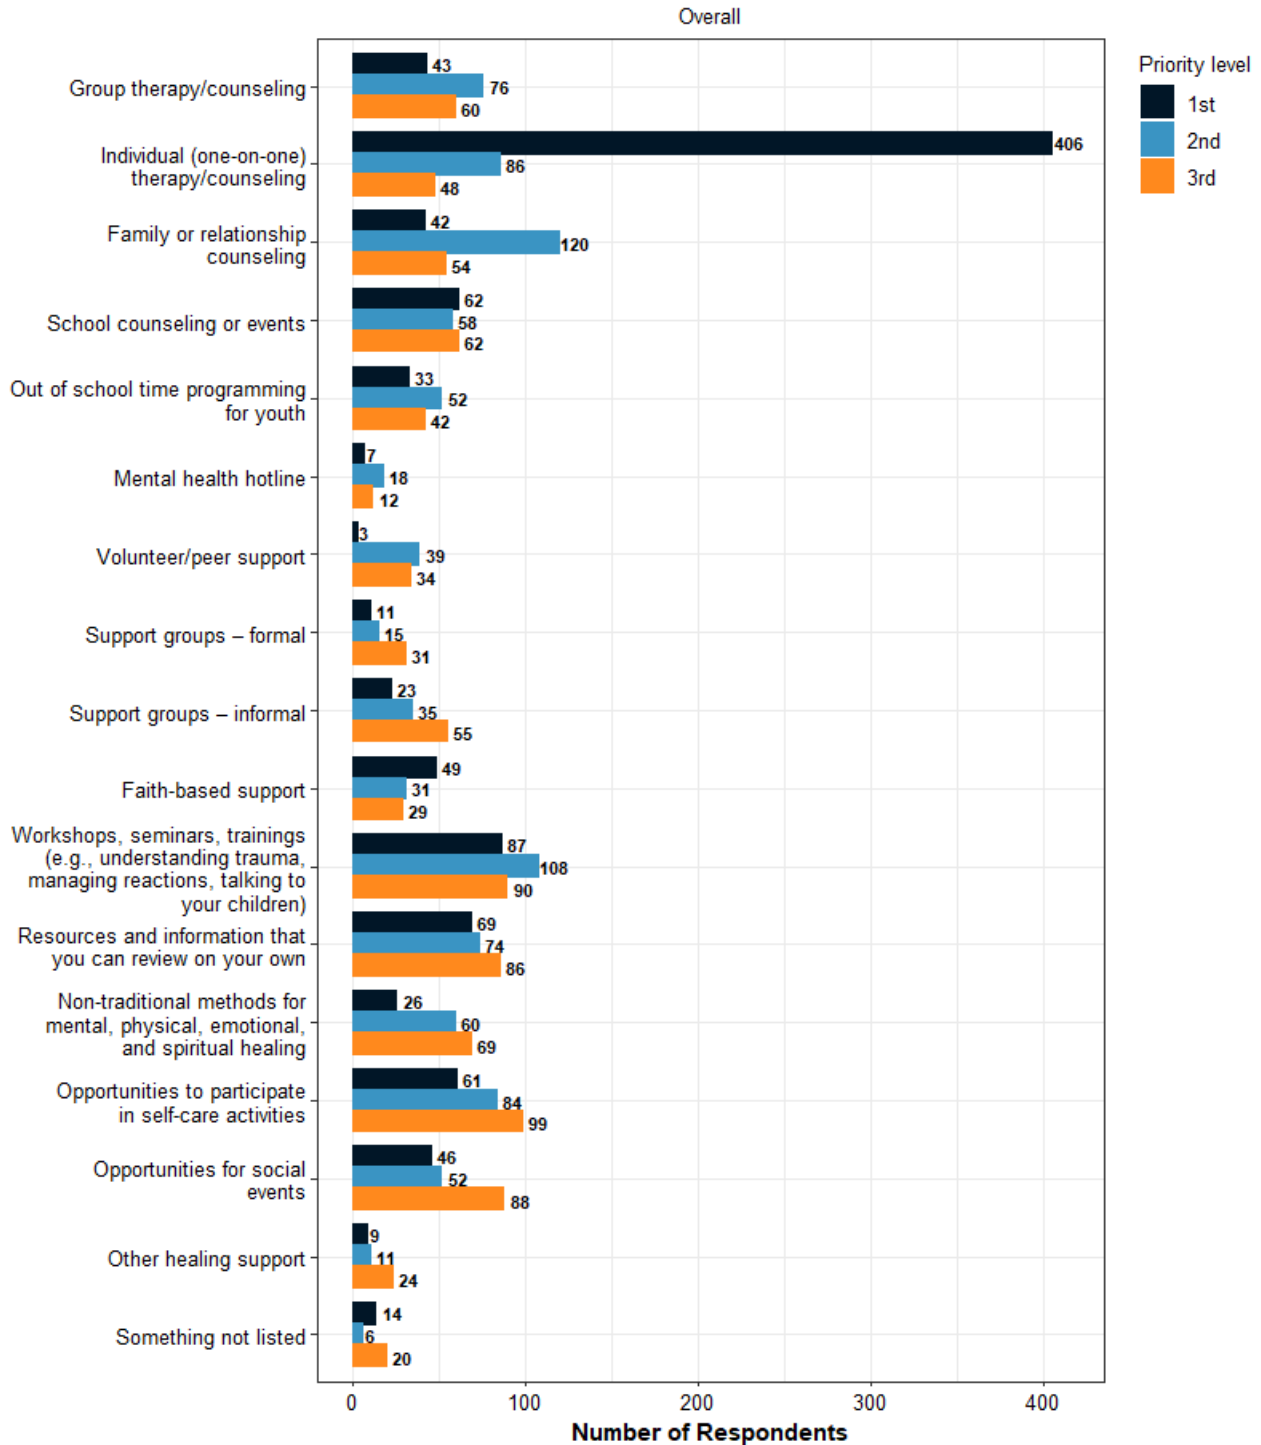

Response	Percentage & Count
Parent of a child enrolled (present or not) at Oxford HS on 11/30/2021	36.5% (n = 384)
Parent of a child enrolled at another Oxford Public School on 11/30/2021	29.1% (n = 306)
Parent of a child not enrolled in Oxford Public Schools on 11/30/2021	22.4% (n = 236)
Community member	21.7% (n = 228)
Teacher or staff member employed at another Oxford Public School on 11/30/2021	9.3% (n = 98)
Teacher or staff member employed at another school on 11/30/2021	7.8% (n = 82)
Family member or close friend of someone who was lost or injured on 11/30/2021	6.8% (n = 72)
Mental health or community service provider	5.1% (n = 54)
Teacher or staff member employed at Oxford HS on 11/30/2021	4.6% (n = 48)
Other	4.4% (n = 46)
Healthcare provider	3.3% (n = 35)
Faith community member	3.3% (n = 35)
Member of the Oxford business community (employee, employer)	2.3% (n = 24)
Spouse, parent, or child of an adult witness (e.g., teacher, emergency responder)	1.7% (n = 18)
Administrator or Public Official	1.6% (n = 17)
First responder (Police, Fire, Ambulance)	1.0% (n = 11)
Another responding professional (e.g., medical, crisis responder)	0.8% (n = 8)
Prefer not to answer	0.6% (n = 6)

Services & Support

Services and support type

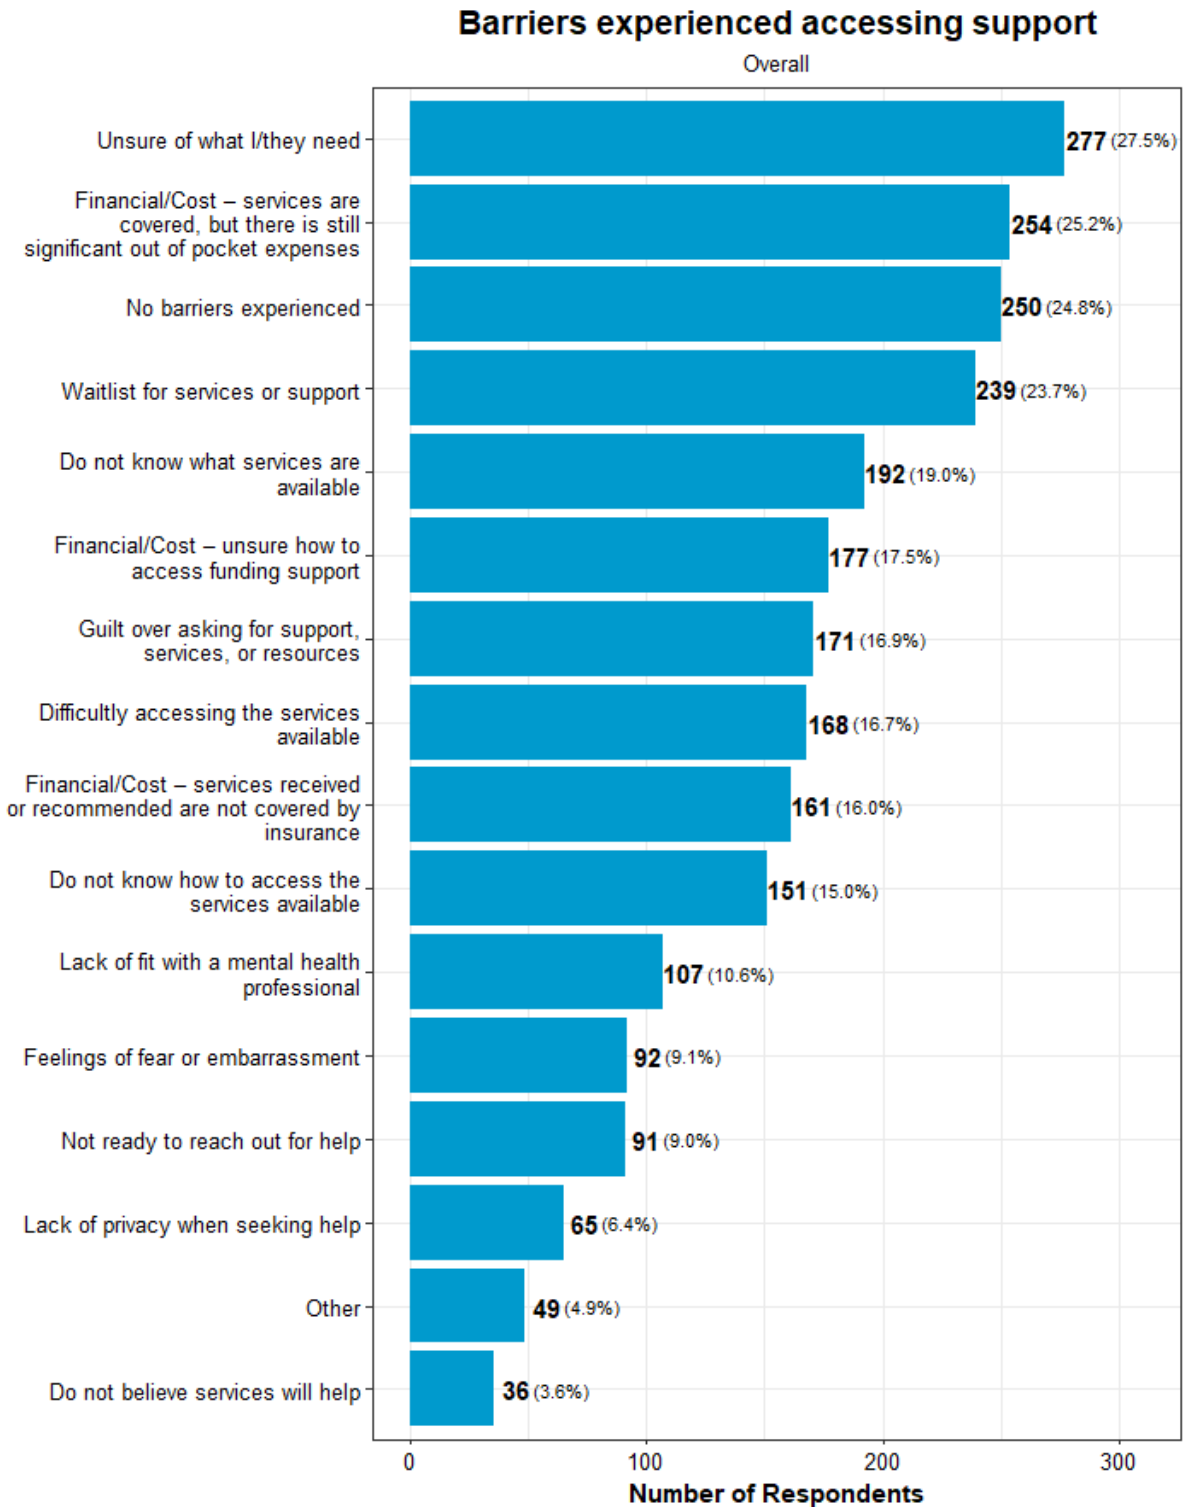

Individuals were asked to rank the top 3 services and supports they believed they or their family would most benefit from. The graph below depicts the number of survey participants and their priority selection of the types of services and supports they believe will be the most beneficial.

Number of respondents who selected the support type by priority level

Barriers

Survey respondents were asked if they, a family member, or loved one had experienced any barriers to accessing the help or support they needed. Respondents were instructed to select all that apply. The graph below shows the count and percentage in rank order of the barriers survey participants selected they, a family member, or loved one has experienced accessing help or support. The survey participants were also able to select “no barriers experienced” as a response option and this selection ranked # 3 in the overall rankings.

Impact

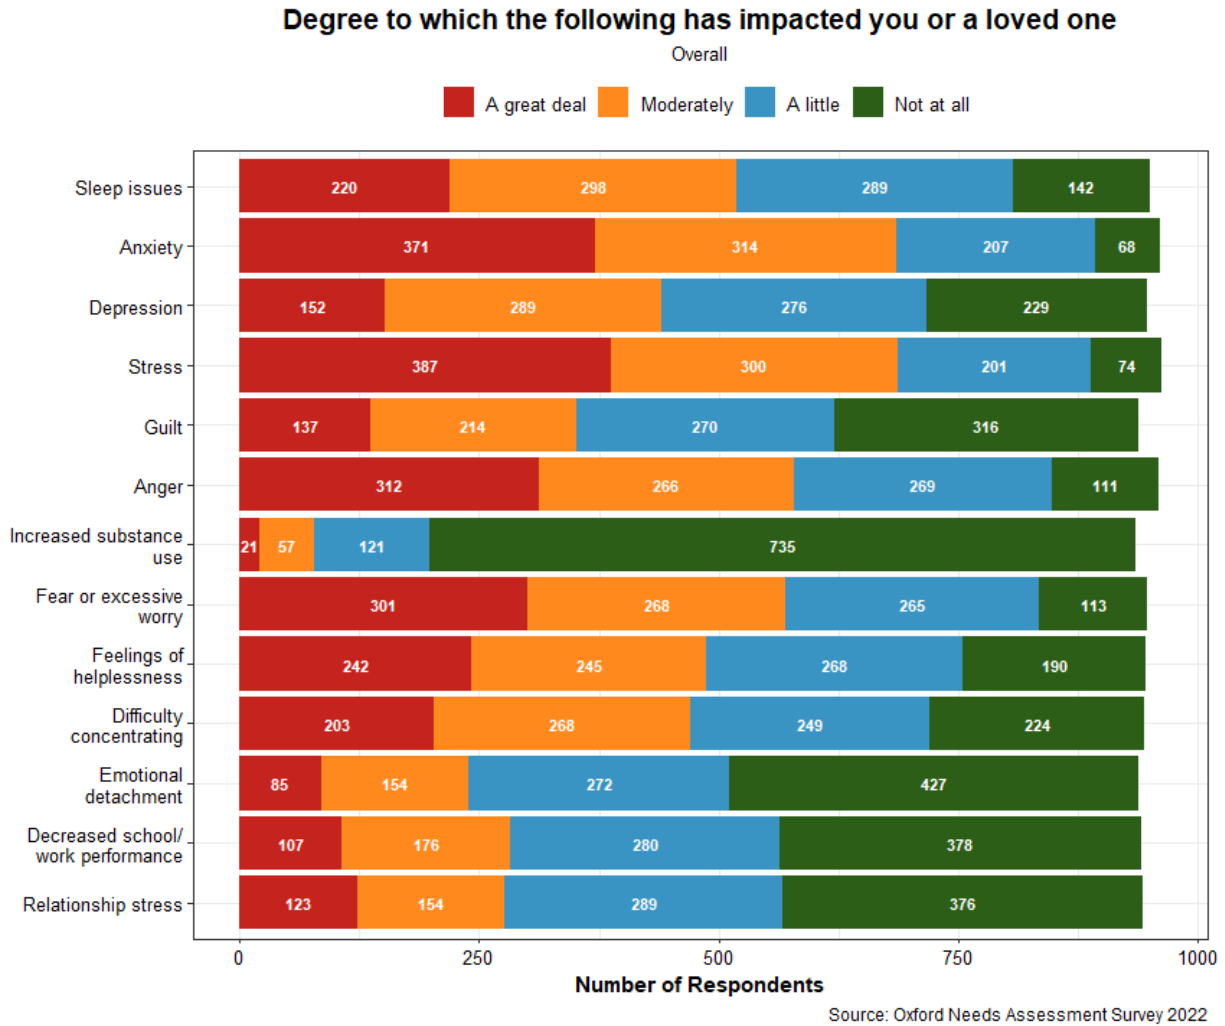

Only those that responded they were a parent of a child in kindergarten through 12th grade were given the opportunity to respond to the following question. There were 775 individuals who answered at least part of the next question.

Those that said they were a parent of a child in kindergarten through 12th grade were asked 'The events of 11/30/2021 have impacted people in many ways. Please rate the degree to which the following has impacted your child.' The graph below represents the count of parental ratings of the degree or impact of various issues and problems their children are experiencing due to the events of 11/30/2021.

Source: Oxford Needs Assessment Survey 2022

Everyone participating had the chance to answer this question. ‘The events of 11/30/2021 have impacted people in many ways. Please rate the degree to which the following has impacted you or a loved one.’ The graph below represents the count of the ratings of the degree or impact of various issues and problems they or a loved one are experiencing due to the events of 11/30/2021.

Experience seeking support

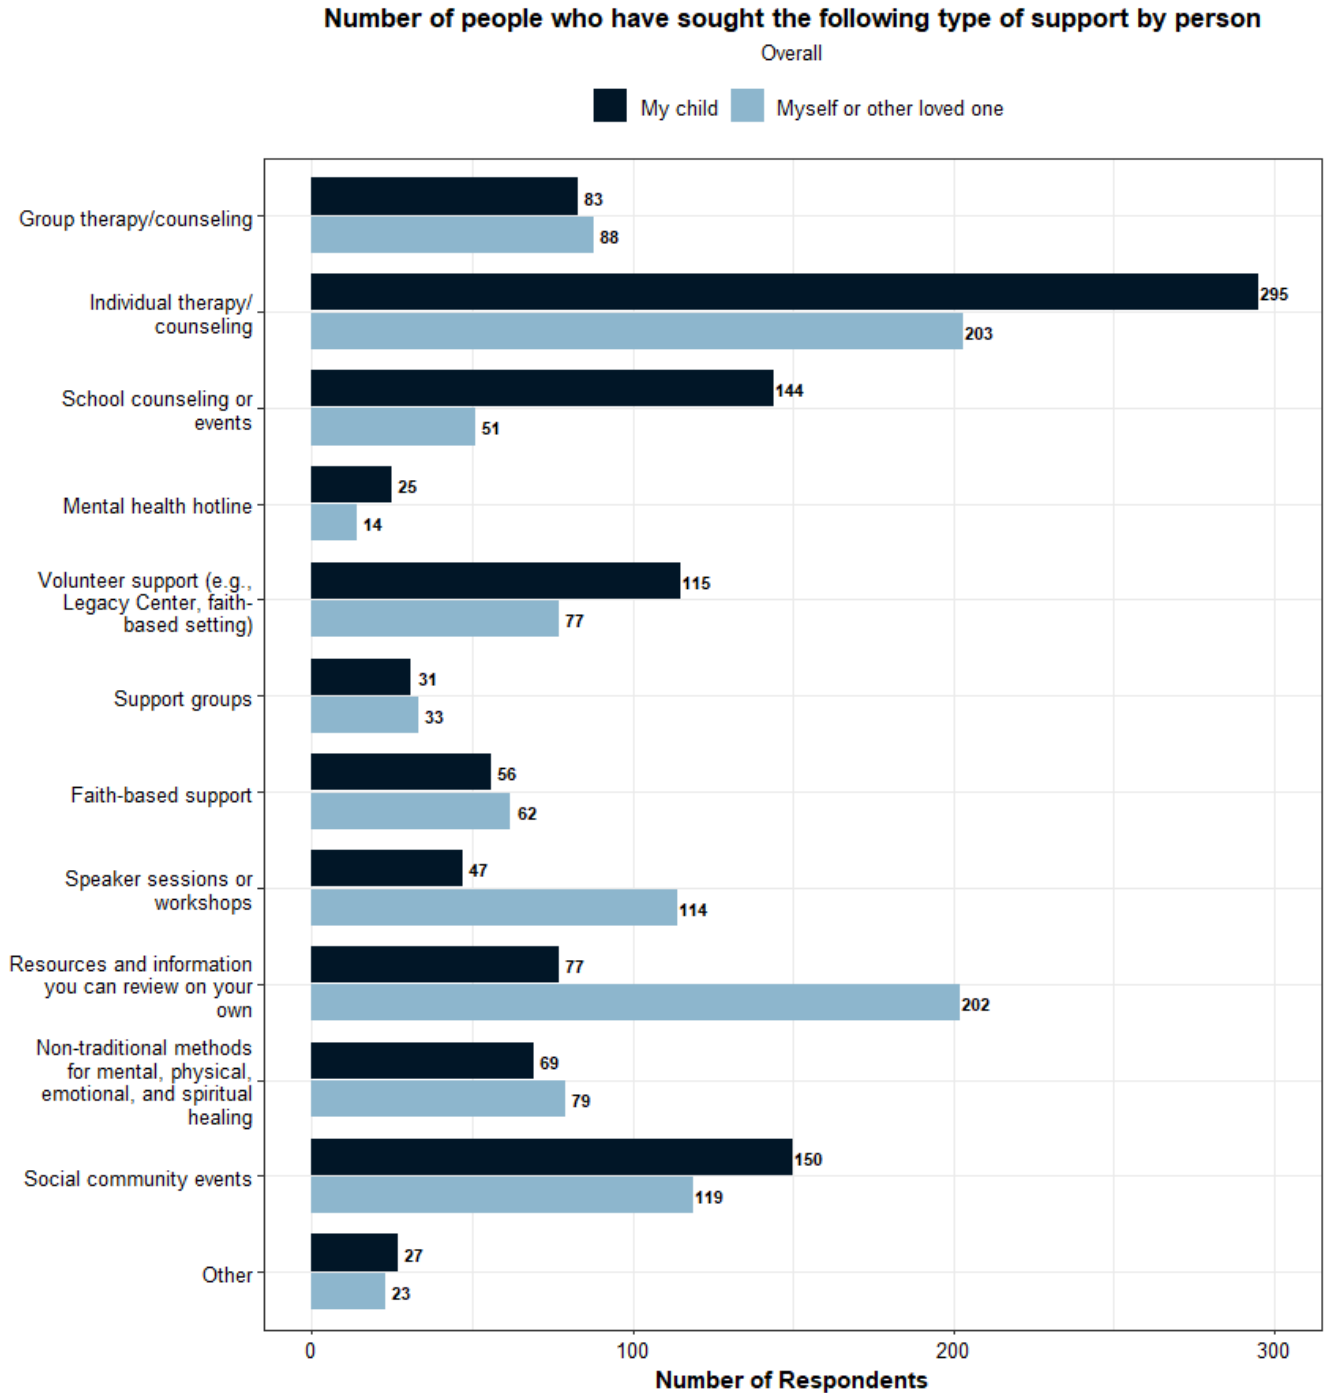

Individuals were given a prompt to let them know the next set of questions asked about whether they or a loved one had sought mental health or wellness support since the tragedy on 11/30/2021. They were told the questions would ask what their experience was like accessing the support and the effectiveness. If the respondent had sought support but did not want to answer the questions, they were asked to select ‘Yes but wish to skip these questions’. The table below shows the percentage and count of those who participated in the survey answered the question.

Sought Support	Percentage & Count
Yes	45.1% (n = 443)
Yes, but wish to skip these questions	9.8% (n = 96)
No	45.2% (n = 444)

Only those who said yes answered the questions on the following pages.

What type of support have you sought and for whom? (Select all that apply)

Of those who selected yes and participated in the next set of questions, 345 sought supports for their child and 351 for themselves or other loved ones. Individuals could answer for both ‘my child’ and ‘myself/other loved one’. The graph below depicts the number of survey respondents that sought distinct types of support for their child and for themselves or other loved ones.

Experience related to your child

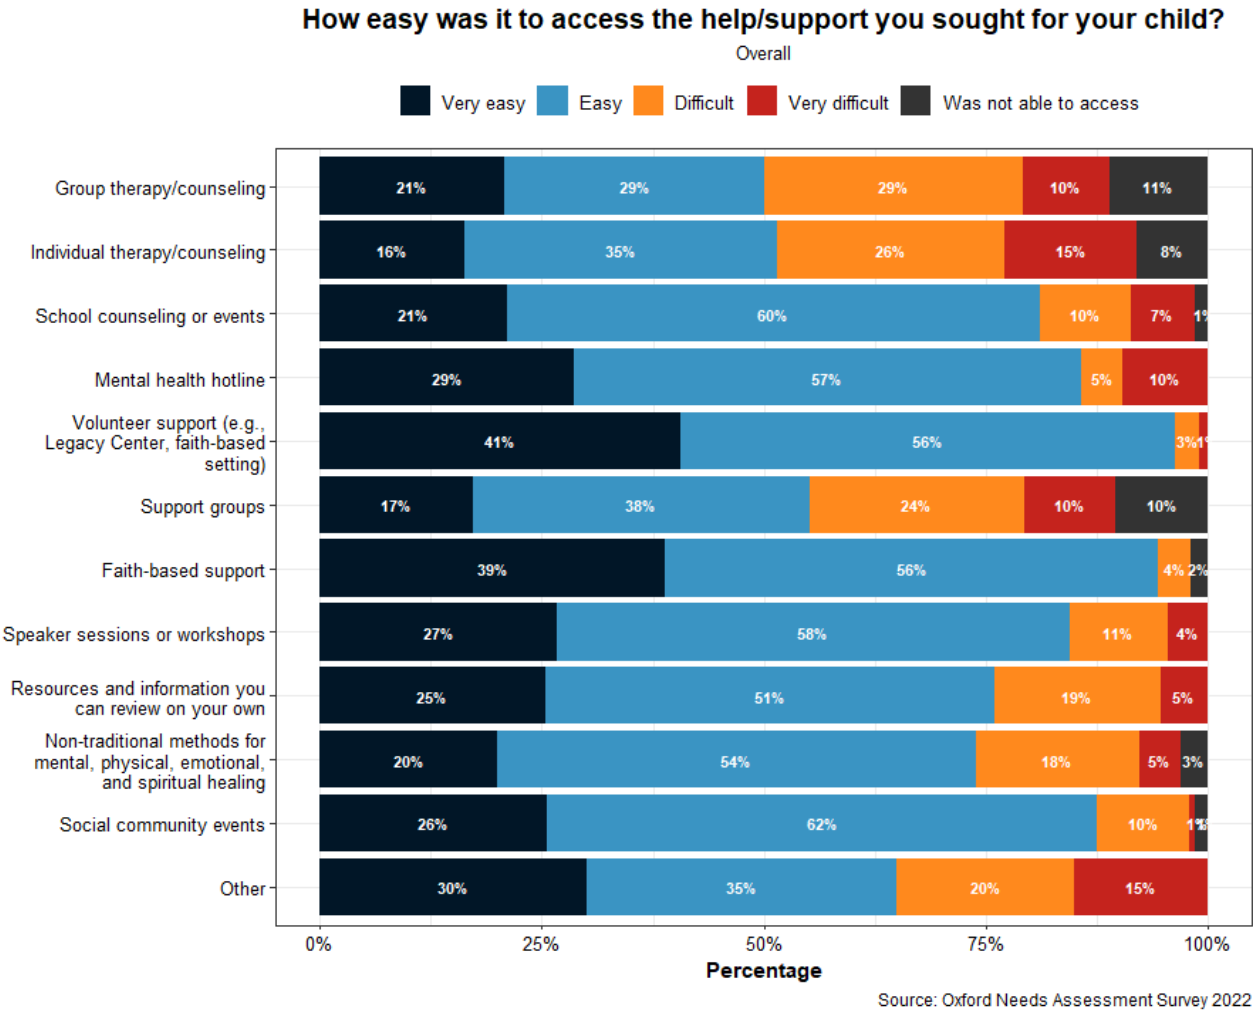

The table below shows the percentage and count of survey respondents' ratings on ease of access to help and support they sought out for their children. Only the support types they selected they sought for their child appeared to the respondent.

How easy was it to access the help/support you sought for your child?

Service/Support Type	Very easy	Easy	Difficult	Very difficult	Was not able to access	Total N
Group therapy/counseling	20.8% (n = 15)	29.2% (n = 21)	29.2% (n = 21)	9.7% (n = 7)	11.1% (n = 8)	72
Individual therapy/counseling	16.3% (n = 47)	35.3% (n = 102)	25.6% (n = 74)	14.9% (n = 43)	8.0% (n = 23)	289
School counseling or events	21.0% (n = 29)	60.1% (n = 83)	10.1% (n = 14)	7.2% (n = 10)	1.4% (n = 2)	138
Mental health hotline	28.6% (n = 6)	57.1% (n = 12)	4.8% (n = 1)	9.5% (n = 2)	0.0% (n = 0)	21
Volunteer support (e.g., Legacy Center, faith-based setting)	40.5% (n = 45)	55.9% (n = 62)	2.7% (n = 3)	0.9% (n = 1)	0.0% (n = 0)	111
Support groups	17.2% (n = 5)	37.9% (n = 11)	24.1% (n = 7)	10.3% (n = 3)	10.3% (n = 3)	29
Faith-based support	38.9% (n = 21)	55.6% (n = 30)	3.7% (n = 2)	0.0% (n = 0)	1.9% (n = 1)	54
Speaker sessions or workshops	26.7% (n = 12)	57.8% (n = 26)	11.1% (n = 5)	4.4% (n = 2)	0.0% (n = 0)	45
Resources and information you can review on your own	25.3% (n = 19)	50.7% (n = 38)	18.7% (n = 14)	5.3% (n = 4)	0.0% (n = 0)	75
Non-traditional methods for mental, physical, emotional, and spiritual healing	20.0% (n = 13)	53.8% (n = 35)	18.5% (n = 12)	4.6% (n = 3)	3.1% (n = 2)	65
Social community events	25.5% (n = 37)	62.1% (n = 90)	10.3% (n = 15)	0.7% (n = 1)	1.4% (n = 2)	145
Other	30.0% (n = 6)	35.0% (n = 7)	20.0% (n = 4)	15.0% (n = 3)	0.0% (n = 0)	20

Graph on the following page.

The graph below shows the same information as the table above. The only difference is it graphically depicts the percentage of survey respondents' ratings of access to help and support they sought out for their children and does not depict the counts.

Intentionally left blank.

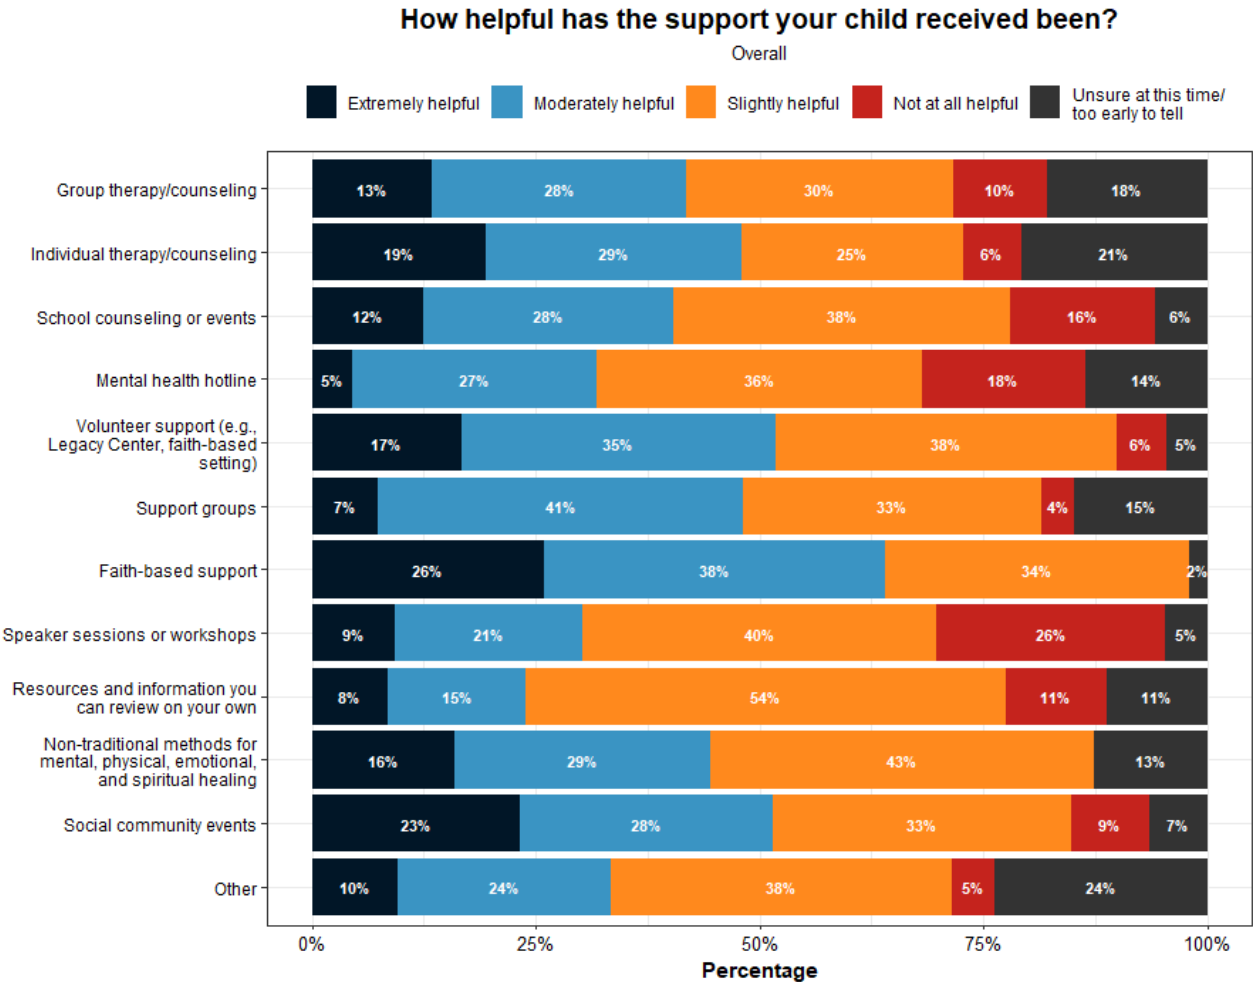

The table below shows the percentage and count of parent survey respondents' ratings of the helpfulness of the various service and support types received by children. Only the support types they selected they sought for their child appeared to the respondent.

How helpful has the support your child received been?

Service/Support Type	Extremely helpful	Moderately helpful	Slightly helpful	Not at all helpful	Unsure at this time/too early to tell	Total N
Group therapy/counseling	13.4% (n = 9)	28.4% (n = 19)	29.9% (n = 20)	10.4% (n = 7)	17.9% (n = 12)	67
Individual therapy/counseling	19.4% (n = 54)	28.7% (n = 80)	24.7% (n = 69)	6.5% (n = 18)	20.8% (n = 58)	279
School counseling or events	12.5% (n = 17)	27.9% (n = 38)	37.5% (n = 51)	16.2% (n = 22)	5.9% (n = 8)	136
Mental health hotline	4.5% (n = 1)	27.3% (n = 6)	36.4% (n = 8)	18.2% (n = 4)	13.6% (n = 3)	22
Volunteer support (e.g., Legacy Center, faith-based setting)	16.7% (n = 18)	35.2% (n = 38)	38.0% (n = 41)	5.6% (n = 6)	4.6% (n = 5)	108
Support groups	7.4% (n = 2)	40.7% (n = 11)	33.3% (n = 9)	3.7% (n = 1)	14.8% (n = 4)	27
Faith-based support	26.0% (n = 13)	38.0% (n = 19)	34.0% (n = 17)	0.0% (n = 0)	2.0% (n = 1)	50
Speaker sessions or workshops	9.3% (n = 4)	20.9% (n = 9)	39.5% (n = 17)	25.6% (n = 11)	4.7% (n = 2)	43
